

STRATEGIC PLANNING FOR IT SUPPORT OF GRANT-FUNDED RESEARCH

SPEAKERS

Robert J. Robbins, PhD
VP, Information Technology
FHCRC

Robert Robbins is Vice President for Information Technology at the Fred Hutchinson Cancer Research Center in Seattle. He was the founding Program Director for Database Activities in the Biological, Behavioral, and Social Sciences at the National Science Foundation. During 1991-1993, Robbins was Director of Informatics of the Genome Data Base, Associate Professor of Medical Informatics, and Adjunct Associate Professor of Computer Science at Johns Hopkins. From 1993-1995, he was Program Director for Bioinformation Infrastructure in the Office of Health and Environmental Research of the U.S. Department of Energy.

RL "Bob" Morgan
Sr. Technology Architect
Computing & Communications
University of Washington

RL "Bob" Morgan is a Senior Technology Architect for the Computing & Communications Department at the University of Washington. He contributes to designing, implementing, and documenting distributed computing and security infrastructure for the UW. He is the Chair of the Middleware Architecture Council for Education (MACE) at Internet2. He is also involved with the Internet Engineering Task Force (IETF), the Common Solutions Group (CSG), the Network Applications Consortium (NAC), and the Organization for the Advancement of Structured Information Standards (OASIS).

Nat Goodman, PhD
Sr. Research Scientist
Institute for Systems Biology

Nat Goodman, PhD, is currently a senior research scientist at the Institute for Systems Biology and an affiliate professor of bioinformatics at University of Alaska-Fairbanks. He helped found the Whitehead/MIT Center for Genome Research, directed a bioinformatics group at the Jackson Laboratory, and led a bioinformatics marketing team for Compaq Computer.

William Lober, MD
Division of Biomedical and
Health Informatics
University of Washington

Bill Lober is a member of the Division of Biomedical and Health Informatics, in the Department of Medical Education at the University of Washington. He received a bachelor's in electrical engineering, before receiving his medical training at UCSF. His research interests are image annotation, knowledge representation, and clinical information systems. He is a member of the American Medical Informatics Association, the Society of Academic Emergency Medicine, the American College of Emergency Physicians, and the AMA/Washington Medical Association.

Ken Buetow, PhD
Director,
NCI Center for Bioinformatics
NCI/NIH

Ken Buetow is director of the NCICB (the National Cancer Institute, Center for Bioinformatics). Prior to that he served as Chief of the Laboratory and Population Genetics Branch in NIH's Division of Cancer Epidemiology and Genetics. He came to NIH from the Fox Chase Cancer Center, where cancer biology and gene-mapping were among his areas of expertise. He received a B.A. in biology from Indiana University, and his M.S. and Ph.D. in human genetics, with an emphasis on biostatistics, from the University of Pittsburgh.

Hosted by

Fred Hutchinson Cancer Research Center, 1100 Fairview Ave, North, Seattle, WA 98109
